Should we always be prepared for an emergency?

In the news this week

The UK government has launched a new website, prepare.campaign.gov.uk, designed to help people plan for potential dangers and equip themselves with the necessary knowledge and resources to respond effectively. Households are encouraged to understand the hazards in their local area by checking their long-term flood risk and signing up for flood and weather warnings. Creating an emergency plan is another key aspect of being prepared, including deciding on escape routes and keeping important phone numbers to hand.

Things to talk about at home ...

- > Do you have any plans in case of emergencies in your household? Is it something that you prioritise?
- > Have you, or anyone at home, ever experienced an emergency? Were you prepared for it? If so, if it happened again, is there anything you would do differently?
