Why is discovery important?

In the news this week

A discovery of more than 6,000 ancient Maya structures, including a city of pyramids, has been named Valeriana. Hidden by jungle canopy in the Mexican state of Campeche, the city was discovered by chance. A student at Tulane University, in the US, found the city with the help of Lidar, a light detection technology, that uses lasers to map landscapes.

Things to talk about at home ...

- > Share what your definition of 'discovery' is with someone at home. Ask what their definition is.
- > Can you think of any big discoveries in the world made during your lifetime? Ask others at home whether they can recall any. Talk about the impact each had.
